Passionate Application Developer, delivering outstanding quality and service. Offering experience in IT industry with history of recognition for performance.

SKILLS

Programming: JavaScript, Entity Framework, Web API, Microservices

Database: MySQL, PL/SQL, Database Administration, Tableau, SPSS, Microsoft SQL Server.

Web Development: HTML, CSS, JavaScript, Bootstrap, React.JS

PROFESSIONAL EXPERIENCE

Application Developer

Tata Technologies Limited, Pune

AUGUST 2022 – Present

- Contributed to the seamless integration of MES solutions, enhancing manufacturing processes and productivity.
 - Achieved a 20% improvement in database query performance by developing efficient stored procedures in SQL and MySQL, optimizing data retrieval processes and enhancing overall system efficiency.
 - Utilized SSRS (SQL Server Reporting Services) to design and deploy comprehensive reports, providing stakeholders with actionable insights and data-driven decision-making capabilities.
 - Developed and maintained MES applications using technologies such as MySQL JavaScript, and Git.
 - Leveraged my expertise in JavaScript to design, develop, and deploy useful and user-friendly MES applications for project-specific manufacturing workflows.
 - Managed redevelopment of internal tracking system in use by project clients, resulting in 3+ new features, reduction of 20% in load and operation time.
 - Experienced in agile methodology for quick issue resolution and solution implementation.
 - Played a key role in troubleshooting and resolving database-related issues, employing strong problem-solving skills and attention to detail to deliver timely resolutions.
 - Implemented triggers to enforce data integrity constraints and automate business processes, enhancing system reliability and reducing manual intervention.
- Successfully implemented database replication for multiple tables, ensuring 99.9% data consistency and availability across distributed environments.

Network Engineer Trainee

Capgemini IT, Gurugram

JUNE 2022 – July 2022

- Replicate the customer issues in lab environment. Work with engineering teams to replicate customer issues and test possible fixes.
- Provided front line technical support to debug networking problems by replicating the customer issues of diverse scope.
- Helped customers solve reported product and network problems of varied complexity.

EDUCATION

Manav Rachna International University, Faridabad, IN

JULY 2018 – June 2022

Bachelor of Technology in Computer Science and Engineering

- GPA: 6.9

CERTIFICATIONS

- [HTML, CSS, and JavaScript for Web Developers - Coursera](#) 2021
- [Microsoft Office Specialist](#) 2017
